

**Personal schedule for every participant**

Given below are personal schedules for every participant in the meet. They are organized alphabetically by participating unit and then within each unit alphabetically by participant name.\

The personal schedules for different units are on separate pages so it is easy to print schedules for a specific unit.

Each personal schedule is a list of events of one participant organized by date and event sequence no. for the date.

The purpose is to enable each participant and parent to be better prepared for the meet. They will know the first and last events of the swimmer and will get a fair idea of when to reach and leave the meet venue.

They can plan for the waiting time, rest and nutrition between events and come prepared accordingly.
